Pro-cell Prisoner Transport System

Features of Pro-cell Prisoner Transport Systems

- **Patented, fully enclosed, single or dual prisoner transport cells** - each system includes:
 - (1) Partition
 - Securely separates the prisoner transport area from the front of vehicle
 - Choose from three levels of airbag compatibility
 - Durable, powder coated steel construction
 - (1) Polycarbonate Divider Panel
 - ¾" thick, clear polycarbonate
 - Ventilation holes are shielded to prohibit hiding contraband
 - Attaches to partition and seat preventing panel from flexing
 - (1) ABS Prisoner Transport Seat
 - ABS construction is durable and easy to clean
 - Increases prisoner leg area over OEM seats
 - Hard seat sits snugly against divider panel, inhibiting stashing of contraband
 - Choose either the standard, straight back design or contoured back design seats
 - (1) ABS Floor Pan
 - ABS construction is durable and easy to clean, compartment can be hosed out
 - Drain hole liners deter fluids from flowing back underneath floor pan
 - (2) Rear Seat Window Armor
 - Eliminate prisoners kicking out rear windows
 - Pre-drilled holes installs in minutes to the interior, rear door frame
 - Rugged Steel Bars made of durable, black powder coat finish
 - (2) Rear Seat ABS Door Panels
 - Eliminates prisoner access to window controls
 - Prevents prisoner from pulling off interior door handles or opening door from inside
 - Eliminates crevices and cracks of OEM door panels where contraband can be hidden
- **Easy to clean construction**
 - minimizes concerns of biohazard contamination
- **Division of rear seat area** - provides additional officer storage space

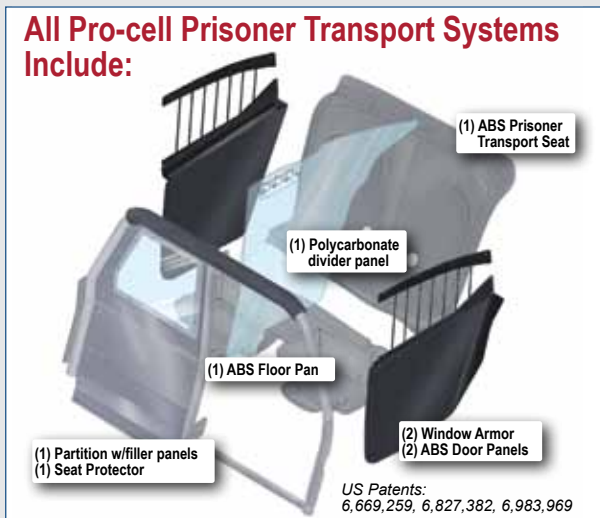

- **Optional vertical, dual or single, gun rack mounting option**, full cage has optional space saver, recessed panel
- **Choose either single or dual prisoner transport systems**
 - **P1000 ½ Cage, Single Prisoner Transport**
 - Half partition design
 - Full Recline and full travel of driver's seat
 - **P1500 ½ Cage, Single Prisoner Transport**
 - Half partition with full roll bar design
 - Full Recline of driver's seat
 - **P18260 Full Cage, Dual Prisoner Transport**
 - Full partition design
 - Full travel of driver's seat
 - Ideal for transporting two prisoners at the same time
- **Choose from three side curtain airbag compatibility options:**
 - Airbag Compatible, Filler Panels that flex under the force of airbag deployment
 - AOI Airbag On/off Control Switch kits that allow departments the ability to turn airbags on or off, used in conjunction with Hard Wing Filler Panels
 - Standard Partitions for vehicles with no side curtain airbag compatibility issues, used in conjunction with Hard Wing Filler Panels

Optional Gun Racks

- G6300 Series Gun Racks for mounting dual or single weapons on ½ Cage Partitions
- G7210 Series Gun Racks for mounting dual or single weapons on Full Cage Partition
- G5000 Series, Horizontal Mount Gun Racks for mounting single weapons on Full Cage Partition

All Pro-cell Prisoner Transport Systems Include:

Choose from three styles of side curtain airbag compatibility options to match your departments needs
