I. The following tools will be required to complete the installation.

   A. 1/4” or 3/8” drive ratchet with 7/16” socket
   B. 7/16” combination or box end wrench

II. Read all instructions carefully before starting the assembly process.

III. Choose the correct instructions below your application

IV. Installing the Recessed Panel

   A. Remove the Center Panel from the Partition Assembly, retaining the hardware. Install the optional Recessed Panel (RPXXXX) (See Fig. 1)

V. Installing the Lower Extension Panels

   B. Place the seat protectors (SPXXXX-XXP & D) against the back side of the partition with the bent portion angling forward under the back of the front seats. (See Fig 2).

   C. Adjust the height of the seat protector to the desired fit with the floor covering or Pro-gard Floor Pan. Attach with the supplied 1/4” x 5/8” (3X36) carriage bolts and 1/4-20 (3X16Z) whiz nuts. See Fig. 3

VI. Standard Installation

   A. Place the seat protector (3SPXXXX-0X Vehcile specific) against the back side of the partition with the bent portion angling forward under the back of the front seats. (See Fig. 1)

   B. Adjust the height of the seat protector to the desired fit with the floor covering or Pro-gard Floor Pan. Attach with the supplied 1/4” x 5/8” (3X36) carriage bolts and 1/4-20 (3X16Z) whiz nuts.

---

THESE COMPONENTS ARE REQUIRED TO INSTALL THE PRO-GARD RECESSED PANEL SYSTEM
