THESE COMPONENTS ARE REQUIRED  
TO INSTALL THE PRO-GARD PARTITION SYSTEM

I. Refer to the diagram on the last page of these instructions to verify all parts were received.

II. The following tools will be required to complete the installation.

A. 1/4” drive ratchet with 7/16” socket  
B. 3/16” Allen key  
C. 1” Hole saw  
D. Drill with 3/8” Socket  
E. T15 Torx Driver

III. Read all instructions carefully before starting the assembly process.

**NOTE:** Locate all Wiring, Fuel Lines, Brake Lines, and/or Cooling Lines before drilling holes or installing Fasteners.

IV. B-Pillar Bracket Installation

A. Remove B-pillar trim on the Passenger-side. This will be reinstalled after bracket installation.  
   Note: From the head liner down the trim is held in place by snap fasteners but the top of the trim panel is held in place with a screw. Pull head liner down and away from the trim panel and use a T15 torx driver to remove the screw.

B. Place the Passenger B-pillar bracket (3PRT5611-01P) against the B-pillar face (See Fig. 1).

C. Orientate the B-pillar bracket so the bottom tab fits into the “T” slot on the B-pillar and the formed edges wrap around the B-pillar. Using the supplied Self-Drilling screws (3X162) secure it to the B-pillar.

D. Using the Driver B-pillar bracket (3PRT5611-01D) repeat process on Driver-side of the vehicle.

V. Drilling B-pillar Trim Panels

A. Remove the sound insulation located inside the Driver-side trim panel, carefully align the template per their included instructions. Using a 1” Hole Saw drill the clearance holes as marked on the template. Replacement of sound insulation is optional.

B. Replace the trim panel, insuring that the standoff’s protrude through the panel.

C. Repeat process on the Passenger-side trim panel.

VI. Installing Partition Mounting Plates

A. Attach the Passenger-side Mounting Plate (3PRT5611-02P) using the supplied 5/16-18 x 3/4” Button head screws (3X149) to the standoff’s protruding through the B-pillar trim (See Fig. 2). Hand tighten only.

B. Attach the Driver-side Mounting Plate (3PRT5611-02D) using the supplied 5/16-18 x 3/4” Button head screws (3X149) to the standoff’s protruding through the B-pillar trim (See Fig. 2). Hand tighten only.

VI Partition Installation

A. Due to the weight and size of the partition, assistance from another party is highly recommended. Insert the partition into the vehicle, lift and position the partition so that it aligns with the Partition Mounting Plates, using the supplied 1/4-20 x 3/4” Carriage Bolts (3X36) and 1/4-20 Whiz nuts (3X16Z) secure the Partition to the Mounting Plates (See Fig. 3). Hand tighten only.

B. Audit the overall installation for fit and function of all components. Once satisfied, insure all fasteners are tight.

VII. Air Bag wing Installation

A. The Filler Wings and their mounting hardware are packed in separate box marked Wing Kit. Install the Filler Wings according to their included Install Instructions.

VIII. Installation is now complete.
