These components are required to install the Pro-Gard partition system

I. Refer to the diagram on the last page of these instructions to verify all parts were received.

II. The following tools will be required to complete the installation.

   A. 1/4” drive ratchet with 7/16” socket
   B. 3/16” Allen key
   C. 1” Hole saw
   D. Drill with 3/8” Socket

III. Read all instructions carefully before starting the assembly process.

   NOTE: Locate all Wiring, Fuel Lines, Brake Lines, and/or Cooling Lines before drilling holes or installing Fasteners.

IV. B-Pillar Bracket Installation

   A. Remove Lower B-Pillar trim on the Passenger-side.
      This will be reinstalled after bracket installation. (See Fig. 1)

   B. Place the Passenger B-Pillar bracket (3P3601P) against the B-Pillar face.

   C. Orientate the B-Pillar bracket so the bottom locating tab fits into the Seat Belt Retractor Pocket on the vehicle B-Pillar and the formed locating flanges wrap around the vehicle B-Pillar. Push up and over on the Bracket until the locating tab is at the top of the pocket and the flanges are tight against the vehicle B-Pillar edge. Insuring that the bracket is located correctly, using the supplied Self-Drilling screws (3X162) secure the B-Pillar bracket to the vehicle B-Pillar. (See Fig. 2A & 2B)

   NOTE: It is critical that the seat belt strap be on the inside of the B-Pillar bracket. Test the seat belt to confirm that there is no interference and that it functions properly.
D. Using the Driver B-pillar bracket (3P3601D) repeat process on Driver-side of the vehicle.

V. Drilling B-pillar Trim Panels

A. Carefully align the template per their included instructions on to the Driver-side trim panel. Using a 1” Hole Saw drill the clearance holes as marked on the template.

B. Replace the trim panel, insuring that the standoff’s protrude through the panel. (See Fig. 3)

C. Repeat process on the Passenger-side trim panel.

VI. Installing Partition Mounting Plates

A. Attach the Passenger-side Mounting Plate (3P3602P) using the supplied 5/16-18 x 3/4” Button head screws (3X149) to the Standoff’s protruding through the B-pillar trim. Hand tighten fasteners only. (See Fig. 4)

B. Repeat process on the Driver-side

VI. Partition Installation

A. Due to the weight and size of the partition, assistance from another party is highly recommended. Insert the partition into the vehicle, lift and position the partition so that it aligns with the Partition Mounting Plates, using the supplied 1/4-20 x 5/8” Carriage Bolts (3X36) and 1/4-20 Whiz nuts (3X16Z) secure the Partition to the Mounting Plates. Hand tighten fasteners only. (See Fig. 5)

B. Audit the overall installation for fit and function of all components, insure all fasteners are tight.

VII. Filler Wing Installation

A. The Filler Wings and their mounting hardware are packed in separate box marked Wing Kit. Install the Filler Wings according to their included Install Instructions.

VII. Seat Protector Installation *Optional Product*

A. The Seat Protector(s) and their mounting hardware are packed in separate box. Install the Seat Protector(s) according to their included Install Instructions.

VIII. Installation is now complete.
