SKID PLATES

Skid Plates shown for the Ford Police Sedan Interceptor

Our Skid Plates prevent costly damages to a vehicle's undercarriage. The product is designed to protect the vehicles transmission, exhaust manifold, and oil pan from the daily grind of pulling onto the shoulder, high-speed pursuits and cutting through or pushing stranded vehicles off of medians. With the addition of Pro-gard's Skid Plates officers and their vehicles are given maximum protection.

Skid Plate Features

- » Provides an added layer of protection underneath the vehicle that is otherwise exposed
- » Easily accessible for routine maintenance
- » No Holes Drilled utilizes existing OEM mounting points for an easy install
- » Powder-coated steel construction
