P1500 PRO-CELL SINGLE PRISONER TRANSPORT SYSTEM

P1500 shown in the Dodge Charger

The P1500 offers a higher level of containment than the standard partition by confining the prisoner to only half the back seat of the sedan. The unique half partition with full roll bar design creates additional storage space behind the officer's seat while adding structural integrity to the vehicle.

P1500 FEATURES

- » Single Prisoner Transport
- » Driver's Seat: Full Travel and Substantial Recline
- » Available for Sedans Only
- » Comes with pair of Window Armor & ABS Door Panels
- » Easy to clean and sanitize surfaces
- » Provides additional storage space behind the driver's seat
- » Clear Polycarbonated center divider is equipped with shielded ventilation holes, providing airflow to both sides of the containment area
- » Optional Outboard Seat Belts
